There is a growing awareness of the need to develop strategies to meet the needs of the ageing population. The Department of Health (1999) has published a strategy for the ageing population, which sets out the government's commitment to improve the health and social care of older people. The strategy is based on the following principles: (1) to improve the health and social care of older people; (2) to ensure that older people are able to live independently; (3) to ensure that older people are able to participate in society; and (4) to ensure that older people are able to live in their own homes.

INTRODUCCIÓN

Descripción General

El proyecto se desarrolla para la cafetería **Rose Coffee** bajo el concepto creativo *"Del origen a la mesa"*. La propuesta consiste en transformar la experiencia tradicional de consumo integrando espacios físicos y digitales, con el fin de comunicar la historia, el proceso artesanal y el valor gastronómico de su producto estrella: el pan de masa madre.

Se basa en un enfoque phygital transmedia que construye un ecosistema digital compuesto por una página web interactiva, contenido audiovisual, campañas publicitarias y experiencias de realidad aumentada.

El objetivo de esta integración es generar conexiones emocionales auténticas con los consumidores y extender la interacción con la marca más allá del espacio físico de la cafetería.
